

*On rare occasion, a piece of public infrastructure
is missing for so long that everyone forgets to notice.*

Where do drivers go after the cop drives away?

Now: somewhere.

RateMyStop

your stop · your voice · on the record

FULL DISCLOSURE

The site, brand, and product are real.

The user base and revenue are not — yet.

This deck is the vision.

FIG. 01 — THE MISSION, IN PLAIN ENGLISH

If you got pulled over — happy or not — come tell everyone.

01. RateMyStop is the public square for traffic stops.

Drivers tag what happened. The platform structures the rating.

Officers' profiles are built — review by review — by the community they serve.

Driver gets pulled over

Happy or not, calm or angry — every stop counts.

02.

RATE

Open the app, tag what happened

Pick fair or unfair. Tag behaviors. Stars are calculated automatically — not subjective.

03.

RECORD

Post becomes part of officer's profile

Verified by ticket photo. Searchable. On the record. Forever.

FIG. 02 – THE ROLLOUT, ONE STEP AT A TIME

Today: cops.
Tomorrow: anyone
in public service.

PHASE 1 • LIVE

Police Officers

Live now. Traffic stops, ratings, complaints.

PHASE 2 ○ NEXT

EMTs • Paramedics • Utility (O&R, Con Ed)

Response time, professionalism, billing & service issues.

PHASE 3 ○ LATER

Gov't Caseworkers • Inspectors

DMV. Social services. Code, building, health inspections.

PHASE 4 ○ LATER

Public Defenders • Prosecutors • Beyond

Courts. Lawyers. Anyone who serves the public.

FIG. 03 – TWO REVENUE PIPES

Ticket-fighter
integration.

When a driver enters their ticket, the app asks:

“Want to fight this?”

One tap routes the lead to a sponsored attorney.
Pre-qualified. Intent-driven. The lawyer pays per case won.

Smart auto-
rating system.

Stars are not asked — they're calculated.
The driver tags concrete behaviors —
professional · respectful · aggressive · hostile
— and the system computes the rating.
Less subjective. Less inflation. Better data.

THE FORMULA

stars = 3 (baseline) + verdict (±1)
+ [(behavior weights, ±0.3 to ±1.5)

clamped 1–5. driver can override with one tap.

FIG. 04 — TERMS OF ENGAGEMENT
